

THE COLLEGE OF NATURAL AND HEALTH SCIENCES SEMINAR SERIES PRESENTS

# SCIENCE NIGHT

WEDNESDAY, MARCH 8, 2017 | 7-8 PM | GREENQUIST HALL 103

## PHI AND PI, THE WONDERS OF NUMBERS

There are many interesting mathematical phenomena in everyday life that are often hidden in plain sight. One such phenomenon is the naturally recurring number known as the Golden Ratio or "phi". Another one is the well-known number "pi". In this presentation, we examine these numbers in detail, and reveal some of the interesting properties and roles that they play in shaping the world around us.

**DR. PAUL MOHAZZABI**  
*Dr. Paul Mohazzabi is the Chair of the Mathematics and Physics Department at the University of Wisconsin-Parkside.*
