### EDUCATION

#### Bachelor of Science of Biological Sciences

Excepted Graduation December 20xx

University of Wisconsin-Parkside, Kenosha, WI

- Concentration: Pre-Health Professions
- GPA: 3.9; Dean's and Provost List

### RELEVANT COURSEWORK

- Human Functional Anatomy
- Mammalian Physiology Laboratory
- Biology of Cancer
- Microbiology
- Developmental Biology
- Cell Biology
- Parasitology
- Virology
- Evolutionary Biology

### EXPERIENCE

#### Microbiologist Intern

December 20xx - Present

Mary Beth Graham, MD – Milwaukee, WI

- Collect and analyzed biological data about relationships between organisms and environment
- Use microscope and other laboratory equipment to examine physiological, morphological, and characteristics to identify and classify microorganisms in water and food
- Communicate research results to individuals in industry, local government and general public

#### Student Microbiologist

July 20xx – November 20xx

Aurora Family Medicine – Racine, WI

- Completed melt curve analysis for genotype and bacteria identification
- Interpreted research findings and summarized data into report
- Kept accurate databases of specimens collected and stored in repository

#### Research Microbiologist

January 20xx – May 20xx

Lake County Health Department – Waukegan, IL

- Handled specimens according to laboratory protocols to maximize accuracy and precision of results
- Recognized abnormal test results and devised corrective actions to retain accurate and valid results
- Utilized expertise in microbiology, chemistry, and hematology to help with diagnosis of medical issues

### CAMPUS INVOLVEMENT

#### President

September 20xx – Present

Pre-Health Club
